Read the text carefully, take in and understand what it means!

- Be sure to be movable, do not lie down or sit down, **never** both knees on the back!
- Never cross the track during the race! Vehicle time varies!
- Observe the safety distance of one meter to the rails, they are built to be flexible.
- Use common sense!
- If you see someone standing dangerously placed - tell, help, act!
- Do not hesitate to ask official if you are unsure of anything.
- Listen to and always listen to official requests.
- Vest as designated should always be worn visibly when staying on the track.

Now customize these rules according to the track/event you are applying, use your common sense. This is to protect both you and the organizer. You have a responsibility!

I have read and understood the above text.
